NURSERY - IX

THE PURPOSE OF ALL EDUCATION IS DEVELOPMENT OF MANKIND.

Director's Word

Once Swami Vivekananda quoted that the purpose of all education is development of mankind.

We believe that being a school it is our duty to educate our disciples for the fulfillment of the purpose of education. Therefore we, at Delhi Public Secondary School are committed to provide our students a quality learning environment by the virtue of infrastructural ambience and dedicated staff.

Our curriculum is well embedded with valuable knowledge, skill academic and training support blended with co-curricular and Extra-curricular activities which enable students to cope up with the competence of fast growing world.

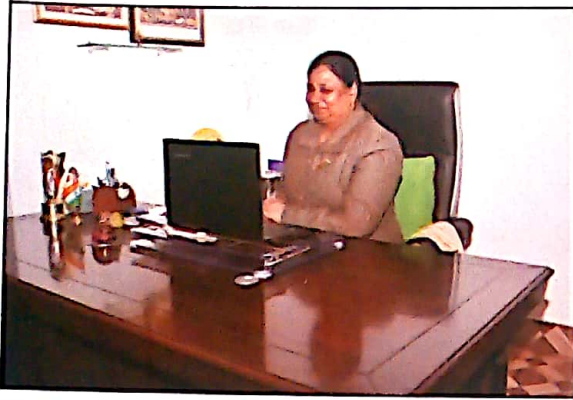

With all our heartily endeavors, we aim to educate our pupils in a manner that grows them into a morally strong person with academic superiority. We aspire to actualize our dream of victorious and unbeaten alumnus marking their presence all over the world.

Sincerely
Santosh Verma
Director

“

We believe that being a school it is our duty to educate our disciples for the fulfillment of the purpose of education. Therefore we, at Delhi Public Secondary School are committed to provide our students a quality learning environment by the virtue of infrastructural ambience and dedicated staff.

Principal's Words

“We cannot always build the Future For our youth, but we can build our youth the Future. Remember The reward of every good action will be good only.”

Dear Student's

As we step into this new academic year, filled with hope and dreams of scaling new height. I wish to reiterate the importance of few things that we have to keep in mind. Parents should remember that children should not be forced, but should be guided to achieve whatever goals they may have in their minds in an easy and pleasing manner, so that we may be able to discover the particular touch of genius in each one of them. The purpose of education is to teach our children to think and develop a capacity to reason out facts. Students should keep in mind the importance of planning and prioritizing their time and the effective use of it which are to achieve success.

Students should always think and review-discover the cause and effect of every event, in which they are involved. Do not surrender or become a slave to youthful fancies and indulgences. Be steady in your studies. Learn to enjoy hard work-particularly your studies. Think wisely, think systematically. Always prepare yourself for next day's lesson. Be very serious and attentive in class.

With experienced & dedicated teachers and excellent infrastructure, our school helps students to realize their goals in life. We encourage all students to take advantage of the opportunities provided by this school and involve themselves in all the extra curricular activities that are offered. The overall development of the mind and body is a sign of a healthy and complete development.

Hard work, dedication and perseverance are the most important traits in a person that lead to success. The future belongs to you, therefore you need to prepare yourself for an active participation in the world. This participation demands that you become well informed and hence develop yourself like a pioneer and ultimately grow as responsible men and women.

Wishing you all Good Luck.
With Prayers,
Principal

Our Mission :

- To achieve highest standards of excellence
- To make our students capable and responsible citizens of the country
- To recognize and develop students' potential and shape their character
- Cultivation of Indian ethos, values and culture with passion
- To make them globally competitive
- To make them responsible to environmental concerns
- To prepare them ready to serve others graciously and selflessly

Our Vision :

To become the most leading institution of the region providing holistic education to our students in a supporting and caring environment to make them globally competitive.

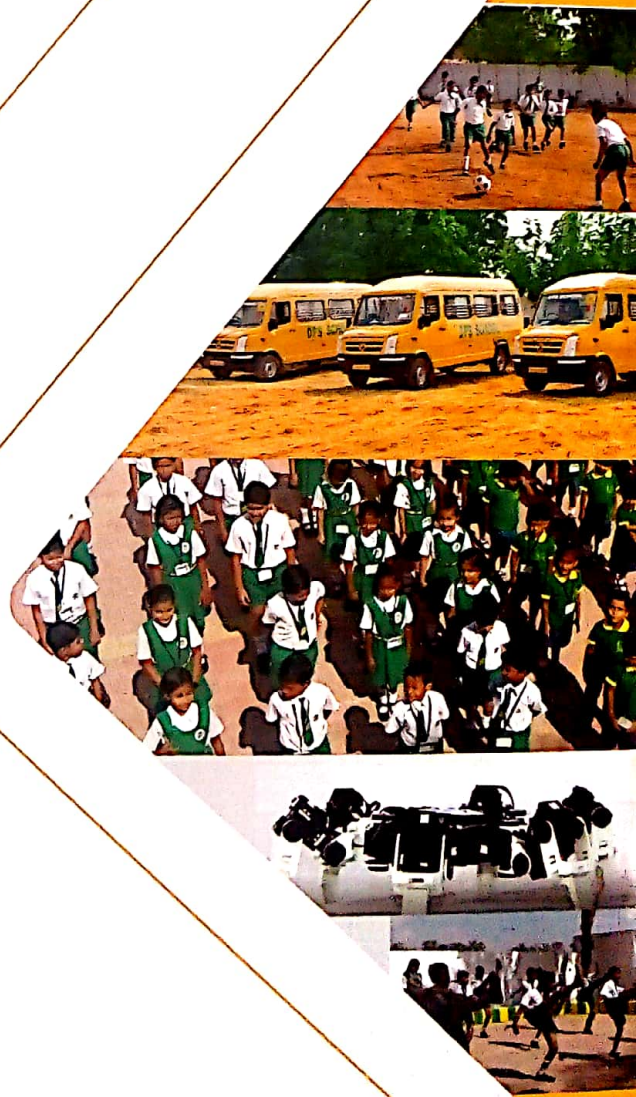

WHY DPS?

- Well structured balanced value based curriculum
- Specially designed Pre-Primary curriculum
- Highly qualified, trained and experienced faculty
- Technology based modern techniques of education
- State of the art infrastructure and facilities
- Activity oriented teaching learning process
- Digital class rooms
- Educational trips and international exchange program
- Special focus on communication skills specially in English
- Plethora of co-curricular and extra-curricular activities

Setup and Facilities

- Well-designed interiors
- Wi-Fi enabled Interactive classrooms
- State of the art laboratories
(Physics, Chemistry, Biology, History, Geography, Mathematics, Robotics, Language & Home Science)
- Customized activity rooms
- Interactive HD panel display in the activity rooms
- Computer terminals with latest configurations
- Hi-tech School auditorium
- 24X7 surveillance room

- Multi-purpose Hall
- Well-equipped e-Library
- Special indoor play arena for Pre Primary
- Huge play field
- Thoughtfully designed community spaces
- Infirmary

Faculty

Delhi Public Secondary School, Robertsganj Has Very Highly Qualified And Experienced Teaching Faculties Imbued With The Spirit Of Dedication And Devotion. Ralph Waldo Emerson Said, "The Man Who Can Make Things Easy Is The Educator". Thus, The Teachers Here Are Competent And Teach Beyond The Books Infusing Knowledge With Technology Igniting Curiosity To Develop The Required Skills. Our Teaching Methodology, Discipline And Administration Are Widely Appreciated By The Parents Which Is A Testimony Of Our Future Potential.

Curriculum

Pre-Primary

The pre-primary wing of the school comprises classes Playgroup, L.K.G and U.K.G. catering the needs and demands of early childhood learning. Bearing in mind that at this age the foundation of a child's personality is laid and two third of his intellect is formed, we have created an environment and a system of teaching which is entirely child friendly where children enjoy joy of learning social skills, develop verbal ability and motor skills through art and crafts, formal learning of the three R's which is an integral part of our open-ended curriculum. Our open ended curriculum sensitise our children to social and cultural concerns and encourage to think, reflect on issues and arrive at their own solutions to enable them to communicate effectively and to develop the integrated skills and creativity required for them to grow as confident and independent individuals.

Primary (Class I - V)

The syllabus becomes more broad based at this level and gradually the young learner is exposed to a wide range of subjects and study materials as per the new CBSE guidelines. Apart from Maths, English, Hindi, Sanskrit, E.V.S., Computer Science, emphasis is also laid on Visual and Performing Arts, Value Education and General Knowledge. A plethora of choices is given to the students for their Life skills and Work Experience classes ranging from shooting, archery, swimming, robotics, public speaking, clay modeling etc. to name a few. The teaching of all the subjects is done using the multimedia teaching aids making learning a joyful experience.

Middle Level (Class VI-IX)

As per NCERT guidelines the school provides ICT enabled teaching - learning process to empower the students to visualize beyond their books. Apart from Sanskrit as the third language we offer English, Hindi, Maths, Science, Social Science, Computer Science, Physical and Health Education, Work Experience and Life Skills. Our teachers act as facilitators and guides in "learning by doing" rather than rote learning to empower the students to share their thoughts.
